COUNSELING CENTER

On Wednesday, May 26th, the Counseling Team and College & Career Center presented a college planning information session for all juniors: 5 Things You Can Do This Summer. This presentation provides an overview of 5 steps to take this summer to make the college application process easier in the fall. If you missed the presentation, you can find the [video recording](#) and [PDF slides](#) for the Junior College Planning Info Session: 5 Things You Can Do This Summer on the [Grant College Planning website](#).

COLLEGE & CAREER CENTER

NEW ideas for getting your Summer on:

1. **INTERN FOR A SMALL, LOCAL BEAUTY BUSINESS - Love and XO Julia**. Love and XO Julia is a clean beauty, self-care, and lifestyle brand for teens. In November we launched our monthly subscription box called XO Insiders. Our goal is to be the go-to self-care and lifestyle shop for teens. We need help with communications, particularly Social Media. Interested? Go here for more information: [Love and XO Julia Summer Internship 2021](#)

2. **PSU SUMMER BUSINESS INSTITUTE** is recruiting for **historically underserved/underrepresented rising high school sophomores, juniors and seniors (graduating seniors evaluated for program fit too)**. Complete details on the [webpage is here](#). This year the Program will be **completely remote**. [See the 2021 SBI Application here](#). The main goal of the program is that students leave with a sense that they are ready to successfully enroll in college or any postsecondary option and regardless of major or college selected, that they can succeed in their career. All SBI participants will receive **one free business elective credit** via an official transcript upon their completion of the program. This elective can be transferred to any university. Additionally, and to incentivize PPS students participation and boost interest in attending PSU, the **PSU School of Business is offering a \$1500 scholarship** to any PPS student who completes the SBI program and decides to enroll in the Business Administration Program at PSU after high school. The scholarship can be used during freshman year to pay for books, fees and tuition. July 16 is the registration deadline

3. **WASTE PREVENTION AND ENVIRONMENTAL SERVICES INTERNSHIP** - Metro Regional Government is currently recruiting for **3 youth interns** for their **3-year paid internship program**, and they want PPS students to apply! Specifically, they are looking for high school students who will be seniors next school year (2021-2022) as the aim of their internship is to help bridge the gap between high school and college/career. However, they would also consider students who will be juniors next school year (regardless of age for both). They have three intern positions open that **start at \$14 an hour**. No experience is necessary – they're just looking for students who are willing to grow their leadership skills and who are eager to learn more about different careers and jobs in the public sector. **Application deadline is Tuesday, June 1st at 5pm**. Here is the [link to the application for the "Waste Prevention and Environmental Services \(WPES\) Community Services and Education Internship"](#)

4. **BODECKER SUMMER WORKSHOPS FOR ALL Y'ALL CREATIVE FOLKS!** Wow, check out the line up - everything from podcasting with Chris Funk of the Decemberists, Zine Making, Portfolio Development for you juniors and seniors headed to art school, Songwriting, Fashion, Making a Skate Video, Voices of the Elders Workshop and finally All things Film:

PAX
Program of Academic Exchange

Q & A for Host Families

What is the PAX exchange program?
PAX - Program of Academic Exchange offers your family the opportunity to share your daily life with an international exchange student for a semester or school year. Hosting is a terrific way to learn more about another country and culture. Every day activities will take on a new meaning when you share them with a student who is eager to discover the American way of life. At the same time, your family will learn and grow as you exchange ideas and compare lifestyles. It's like taking a trip without having to leave home!

Why should our family choose PAX?
PAX is smaller than many programs, which means the service is personal and consistent. At the same time, the program is large enough to enroll students from more than 70 countries and to have representation across the U.S.

What are the responsibilities of a PAX host family?
A host family should be ready to share their lives with a PAX student as if this child were their own son or daughter. This means providing the student with a bed and quiet place to study, three quality meals a day, transportation to and from school activities and the love and support a teenager will need while adapting to life in the U.S. Host families should be prepared to accept a student of a culture, race, religion, or lifestyle different than their own.

What are the responsibilities of a PAX student?
The PAX student is expected to adapt to the host family's lifestyle and guidelines and to participate in family activities. Students are expected to help out with family chores. Students have spending money for their personal expenses such as their own phone bill, school expenses, movies, etc.

How have PAX students been selected?
PAX works in partnership with educational organizations around the world whose staff personally interview every applicant to determine the student's maturity and motivation. Students submit an extensive application. Academic credentials must demonstrate satisfactory performance in the classroom, a minimum of three years of English study, and positive teacher references. In terms of the student's medical records, a clean bill of health along with the necessary immunizations are required.

What makes a PAX student?
Someone who is:

- 15 to 18 years old with at least three years of English study and the maturity and motivation to spend a semester or academic year living with a host family.
- Eager to experience daily life in the U.S.
- Aware that the PAX Program is not a trip or tour but an academic homestay that requires work and effort and results in learning.
- Appreciative of the helping hand and support that will be given by the host family.
- Covered by full medical insurance and supplied with spending money for personal expenses.

What makes a PAX host family?
A family who is:

- Warm, welcoming, and willing to share their daily life with the student.
- Interested in learning about other countries and cultures.
- Financially able to meet the basic needs of an exchange student.
- Made up of outgoing, open-minded family members. Families can come in many ages and sizes, with or without children or teens.

Why are PAX students interested in coming to the U.S. for the year?
Foreign students are fascinated by American culture and are desirous of making American friends.
Parents consider it a priority to provide their children with opportunities to learn English and to understand another way of life.
Our language is a universal tool in the world of business and science. Speaking English is a tremendous asset for foreign students' careers, and experiencing life in another culture helps them grow in ways that are otherwise not possible. This seems like a big undertaking. Why should our family volunteer to be a host?
Bringing a teenager from another country into your home and your hearts is a richly rewarding experience for all family members.

Your student will learn firsthand about the customs, traditions, and language of the U.S. You will see your own community and country through the eyes of an "outsider."
You will welcome a stranger and say goodbye to a "son" or "daughter" who will always be a part of your lives.
If your student gets sick or has an accident, there is no liability to the host family. All PAX students have full medical insurance coverage.
If you and your student have a misunderstanding, you should call your community coordinator, who will provide counsel and support.
If you have insurmountable difficulties or if unexpected changes happen in your family, your community coordinator will arrange for another placement for your student.

NUTRITION SERVICES

HYBRID AND DISTANCE LEARNING MEAL SERVICES

All school meals will continue to be free for all students in all schools, and no student ID or names are needed to receive meals.

Once a student returns to hybrid in-person instruction, meals will be served at the end of each of the in-person sessions.

Service Style may vary between schools depending on facility, dismissal schedule, etc. Please work with the NS manager/supervisor and NS Lead to determine the best service option for your site. Options may include (and be a combination of the following):

- Students coming through the cafeteria to pick up their meals before leaving the building
- NS staff serving meals off mobile carts near main exits during dismissal
- NS staff to deliver meals to classroom (leave meals and count)

We will also want to work with you to determine a time and location for families in distance learning to pick up meals from your school. This should be a time that coordinates well with the dismissal schedule for your school. For example, if your school has only 1 cohort in the morning, you may consider offering a time just after dismissal to coincide with the scheduled lunch time.

If a student is staying in distance learning -- or if their hybrid in-person learning has not begun -- they should visit any of our **new meal distribution sites** between 3:30 and 4:30 p.m. on school days to pick up meals. For more information please visit the Nutrition Services [website](#).

New Open Community Meal Distribution Sites - Meals on Buses - When students are dismissed from their in person learning, they will be offered school meals to take home with them. If they are riding on the bus, there will be a green container for all school meals to be held while they are traveling to their home or bus stop. As the student leaves the bus, they will pick up their meal again from the green container. Students with special diets or allergies will have their meals in labeled bags and may be stored in a separate container. Please reference this [Standard Operating Procedure](#) for more information.

Trained staff are available 24 hours a day, 365 days a year, to respond. Please be sure to share this information with your friends and family. Remind your students: **If you see or hear something, say something – immediately.**

PPS COMMUNICATION TOOL

PPS has shifted family, student and staff communication to a new tool that gives schools the ability to send texts about emergencies, closures, delays and other important news. To receive text notifications, you must opt in to the service. **You opt in by texting YES to 68453.** Parents and students should confirm their cell numbers listed in the student information system. Staff should confirm their cell numbers are the “primary” number in the PeopleSoft system. For more information about texting, go to www.pps.net and click on the “Mobile First” button.
