

Celebrate National Poetry Month @ Your Library

Mathematics and Poetry are... the utterance of the same power of imagination, only that in the one case it is addressed to the head, in the other, to the heart. ~Thomas Hill

National Poetry Month has been celebrated each April since 1996 when it was established by the Academy of American Poets. Poetry has an important place in literature and is a way to express ideas in a unique form. Whether you like structured or free verse poetry, there's a poem out there for you. Take some time this month to rediscover your favorite poems or to find new favorites.

Share the celebration on **Poem in Your Pocket Day**. On that day, you are encouraged to carry a copy of your favorite poem to share with family, friends and co-workers. For more information on Poem in Your Pocket Day, visit the link below.
