

GIRLS ROCK CYBERSECURITY!

Join us at **PDX Cyber Camp 2017!** The “girls only” camp will give you and other high school girls a hands-on, introductory experience to cybersecurity principles, including hands-on implementation in Windows and Ubuntu.

Cybersecurity is one of today’s hottest technical fields, with some experts forecasting a shortage of up to 1 million trained professionals in the coming years. Cybersecurity careers can be incredibly rewarding and high-paying. By participating in this cyber camp, you’ll receive valuable experience that can help you pursue cybersecurity internships.

PDX Cyber Camp Details
