Average Daily Attendance (ADA) rate is calculated by dividing the total days of attendance (all days each student is present) by the total number of student days (membership days) offered by each school to these students over the entire school year.

Schools/programs showing no ADA submit ADM via instructional hours, therefore ADA is not shown.

NOTE: The data above is based on the entire school year and may be different than ADA used for NCLB accountability, which is based on students present most of the school year and enrolled on May 1. ADA for 2014-15 should not be treated as authoritative, due to multiple issues with attendance reporting in Synergy. These issues occurred in many Synergy districts across the state, and the vendor was unable to resolve them over the course of the year.
